Dream 1: A lot of money makes you
free.

Dream 2: Freedom is the ability to live
without money.

In the cultural life
money makes you egocentric.

Freedom means surmounting
the egocentric power of money.

The lack of work is not the issue
at stake it is the lack of income

An profitless economy
does not provide investment.

- You can lend money you first intend to use in a while, but you should be aware what this money is doing.

In the game of investors
the strongest always win.
Tobin tax can redress some of
the imbalance

- A free cultural life/arena encourages donations. State donations provide predictability, private donations provide variety and development.

- A rich cultural life can free us from the egocentric power of money.
